Dear Sir,

We would like to refer to your letter of June 25 addressed to the Prime Minister of the Republic of Lithuania, where you asked to take note of effective legislation in the area of employee share ownership. We took this request into consideration. Now we are pleased to provide you some information in this respect.

We support your opinion that employee share ownership is an effective instrument in the framework of the modern policy in the area of human resources and welcome your initiative to open a discussion about increasing effectiveness of legislation in Member States. We are pleased to inform, that there are no obstacles for the employee share ownership or development of the human resources policy under the national law in Lithuania.

Should there be any need for more detailed information concerning the national legal regulation, we are at your disposal. We feel confident that cooperation with your organization in this area would bring considerable benefits.

Yours faithfully,

Secretary of the Ministry of Economy

Alina Mačiulytė
