Preparatory action —Implementation of a European Action Plan to promote Employee Ownership and Participation

Remarks:

Add following text:

The aim of the initial pilot project was to provide a clear mapping of the current regulatory situation in the Union, identify potential obstacles as regards employee share ownership practices especially in a cross-border context, and propose appropriate action encouraging employee share ownership. In the final report published by the Commission on October 28th 2014 a Five Point Plan was proposed with short, medium and long term measures. This preparatory action would specifically seek to address two of the proposals under the medium-term measures, namely the establishment of a Commission Expert Group and an Action Programme to raise awareness for Employee Financial Participation as outlined in Chapter 5 of the 2014 study.

Legal basis:

Add following text:

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

Justification:

This preparatory action is a follow up to the Pilot Project for employee ownership and participation (Budget line: 33 02 77 11). The final report of the Pilot Project which was published by the Commission on October 28, 2014 in its conclusion recommends the establishment of a Commission Expert Group and an Action Programme to raise awareness for Employee Financial Participation.

Pilot project — Upholding the fundamental rights of intersex people

Remarks:

Add following text:

Aims:

- Building knowledge through the creation of an EU intersex expert group which works with policy makers and key stakeholders on the EU and national level to combat the fundamental rights violations faced by intersex people, particularly in the medical, legal and administrative area; sharing best practices among the EU Member States in combating discrimination based on sex characteristics.

Outcomes:

- i. Policy makers in the areas of non-discrimination, justice and gender equality are provided with information on fundamental rights violations faced by intersex people;
- ii. An EU network of legal, medical, sociological and human rights experts on the rights of intersex people collects best practices and provides legal expertise to national policy makers, while working hand in hand with intersex people and their families;
- iii. Intersex people and their families are empowered, their voices are heard and they work closely with policy makers to ensure that their fundamental rights are fully respected and protected;

Background:

Fundamental rights violations faced by intersex people have been evidenced by the report 'Discrimination against trans and intersex people on the grounds of sex, gender identity and gender expression' published by the European Commission in 2012 and by two reports released on 12 May 2015: "The Fundamental rights situation of Intersex people" by the EU Agency for Fundamental Rights (FRA) and the "Human rights and intersex people", by Council of Europe Commissioner for Human Rights. A year since the publication of these two major reports, a policy action of the Commission is still lacking. This pilot project seeks to address this gap and commence the implementation of the recommendations of these reports.
