

ANNUAL ECONOMIC SURVEY OF EMPLOYEE OWNERSHIP IN EUROPEAN COUNTRIES IN 2008

INTRODUCTION TO COUNTRY FILES

Employee ownership is progressing faster and stronger across Europe than anyone could expect. This is a quick and recent new development in most European countries. However, some countries began earlier while others dawdled on the way (see Graph 1). The new Annual Survey for year 2008 shows that employee ownership declined a bit on the threshold of the financial crisis, from 283.3 to 240.2 billion Euro (-15.2%). However, this was still much more than the 206.2 billion one year before. As a percentage, employees' share stabilized on 2.63% in the capital ownership structure. Considering recent trends, employee ownership is going to double within the next 5-10 years, from 9.1 million employee owners now to 16 millions, from 28.2% of all employees in large European companies now to 40-50%, and capitalisation held by employees going to raise from 2.63% now to 4-5%. This is the main conclusion of the economic survey of employee ownership in the European countries in year 2008. This survey is based on information about each of all large European companies – which also means a similar information for each of all European countries. Furthermore, it is based on information given by companies themselves in Annual Reports – which means a quick information and a high quality. The full version of this Annual Survey is available at the European Federation of Employee Share Ownership.

LUXEMBURG (LU)

Large companies in our database are not in significant numbers in Luxemburg (at least considering Luxemburg as the country of origin) to make valuable comments.

% CAPITAL HELD BY EMPLOYEES IN EUROPEAN COMPANIES in 2007/8

(29 European countries - 2.533 largest European groups - 259.000 companies - 32.4 million employees)
