

EMPLOYEE SHARE OWNERSHIP - THE EUROPEAN POLICY EUROPEAN PARLIAMENT - BRUSSELS - ROOM PHS P5B001 6 FEBRUARY 2019

"Employee share ownership for all" - this is the goal of the European Policy for 30 years. Today we are 10 million employee shareholders in Europe, in 95% of all European listed companies, 30 million voters including families. However we would need to multiply that number six-fold to be comparable with the USA. A European Action Plan was requested by the European Council in 2000, announced by the Commission in 2002, prepared by a Pilot Project in 2014, the need was reaffirmed through the European Parliament's Resolution of 23 October 2018. It has now to be put in place.

The Conference is hosted thanks to Ms Renate Weber, Member of the European Parliament and her ALDE Group.
